ROBERTSNOTE 1050

FFG58/NOTE

NOV 29 2009

USS SAMUEL B. ROBERTS (FFG 58) NOTICE 1050

Subj: BEER ON THE PIER POLICY

Encl: (1) Beer Inventory and Transfer Sheet

1. Purpose. To provide policy and guidance to set the conditions for having "Beer on the Pier" in liberty ports during 2009/2010 AFRICOM Deployment.

2. Discussion. During SAMUEL B. ROBERTS' AFRICOM Deployment some of the port visits will require the ship to hold liberty for all hands on the pier. In other ports, some of the port visits might be less desirable for the crew to go out on town and would rather spend their liberty on the pier. To provide a safe environment and opportunity for the crew, the command will offer "beer on the pier" under the following policy.

3. Policy. The Executive Officer with permission from the Commanding Officer will inform the crew when and where the ship will be having "Beer on the Pier". The executing and enforcing of the overall "Beer on the Pier" program will be charged to the Chief Petty Officer Mess.

a. Purchase of beer. The CPO Mess will purchase cases of beer from the Navy Exchange during the Rota, Spain port visit utilizing CPO Mess funds.

b. Stowage of beer. The beer will be stowed in the forward CPO gear locker under lock and key. One key will be held by the Command Senior Chief and the other key will be held by the Master-at-Arms. Inventory of the beer after each issue will be conducted utilizing Enclosure (1) and passed on to the Master-at-Arms to be tracked on Eight o'clock reports.

c. Sale of beer. The CPO Mess will provide two non-duty section CPOs that are not consuming alcohol to set-up a table, coolers, and trash barrels for the sale of beer. The two CPOs will ensure quality control of transporting of the beer from the CPO locker to the coolers on the pier utilizing Enclosure (1). The two CPOs will keep track on how many beers each individual is buying and for whom. No alcohol or beer that is not purchased from the ship/CPO Mess will be allowed on the pier. Profits of the sale of beer will be divided between the CPO Mess at 70% and Morale Welfare and Recreation at 30%.

d. Securing of the sale of beer. Last beer will be sold at 2130 or one hour before liberty expiration. Upon the securing of the sale of beer, participants will make sure the area is clean and free of empty beer cans. All beer not utilized will be inventoried utilizing Enclosure (1), brought back on board, and stowed in the forward CPO locker. The Executive Officer will be informed once the sale of beer on the pier is secured.

e. Conduct of crew. During the selling of beer, personnel will be monitored for over consuming of alcohol/beer. Any individual who shows any irresponsible behavior or excess intoxication will be "shut-off" from the purchasing of beer and sent back to the ship. The CPO Mess will be monitoring

ROBERTSNOTE 1050

NOV 29 2009

the crew on the pier for irresponsible behavior and excess intoxication.
Having beer on the pier is a privilege and will not be abused.

CHARLES L. SELLERS
